COMBINATIONS:

1. Put your pencil down and close your book
2. Pack up your backpack and line up at the door
3. Take out a pencil and a piece of paper

*Note: Combinations to form multi-step directions should be related and relevant (like the example combinations listed above). A non-example would be, "Take out our book, touch your head, stand up, open to page 10." Although there were multi-steps given they were not relevant to each other and interfered with the outcome of being able to find the correct page number.
